

Fade From the Truth: A Tale of Learning then Unlearning the Beliefs of Jehovahs Witnesses

Fade From the Truth is a personal story about how a failed suicide attempt led to the belief that God spared the authors life because He had bigger plans for Alan Miller, especially when Alans mother sends Jehovahs Witnesses back into his life. Alan spent nearly 20 years knocking on doors to offer Watchtower magazines to strangers and to tell them that Armageddon was imminent. The Jehovahs Witnesses shaped every aspect of his life from education to career to marriage, despite the clear warnings along the way that what the Witnesses call the truth was really a lie. Eventually, with Armageddon overdue, Alan figured out that he was in the wrong place. Jehovahs Witnesses dont just let you walk away unscathed. Alan details his choice to fade from activity in the religion, which is a form of sneaking away without getting kicked out, thereby avoiding being shunned by even close family members. But fading has its price also. Afterall, crazy strict religions have got to have rules.
