

Scars & Make-Up: Her Life

To all my single mothers out there who have or are going through the struggle do not let anything deter you from what you want in life and what you have been striving for. The best is yet to come and although things have seemed too far-fetched or out of reach; as strong Black women we were destined for greatness. Always shoot for the stars and aim high in whatever endeavors you pursue and never let anything get you down regardless of your situation. Always take the good with the bad and smile when you are sad. Just know that in the end; it is just you, hope, and God that is pulling you through. The beholder will hold and value what is important so the beholder is you.
